

## ***The True Grace of God***

If you are interested in understanding grace, you should read the book of 1 Peter. He ended the letter saying that in this letter he exhorted and testified *that this is the true grace of God in which you stand* (5:12), so everything in that book teaches us about the true grace of God. When you read this letter, you'll learn about Jesus' resurrection, the reality of heaven, fulfilled prophecies, God's people being a holy priesthood, obeying the government, proper dress, baptism that saves, the sin of intoxication, hospitality, and God's plan for leadership in each congregation. God's grace teaches us to deny ungodliness and live godly (Titus 2:11-12). God's grace makes this saving knowledge available and by faith, built upon solid evidence, we accept God's offer by accepting His teachings (John 12:48; 15:10, 14).

False grace exists when man changes what God offers, such as religion without a resurrected Savior, faith with no evidence, man-made priesthods, little teaching on proper dress, or salvation before and without baptism. Do you know any religious groups offering "God's grace" in these ways? Beware—this is not the true grace of God, according to the apostle Peter.
